beilion and heatility to the government of the United Sistes. I am perfectly aware, and we understand our true and most loyal position far better than our enemies can inform us. We, of all people, are endeavoring to preserve and perpetuate the genius, the constitution and constitution law, while the administration and the troops they have ordered to Utah, are, is fast, themselves the rebels, and in hostility to the general government; and if George Washington was now living, and at the helm of our government, he would hang the administration as high as he did Andre, and that too, with a far hetter grace and to a much greater subserving of the best interests of the country.

After much similar defaunt language, Young says:—

After much similar definat language, Young says:—
By virtue of my office, as Governor of the Territory of Itah. I command you to marshal your troops and leave this ferritory, for it can be of no Dessible benefit to you to waste reasures and blood in prosecuting your course upon the ide of a rebellion against the general government by its administrators. You have had and still have pienty of time or retire within reach of supplies at the east, or to go to Forfiall. Were you or your fellow officers as well acquainted with your men as I am with mine, and did they understand the work they are now engaged in as well as you may understand they are now engaged in as well as you may understand they are now engaged in as well as you may understand they are now engaged in as well as you may understand they are now engaged in as well as you may understand they are now engaged in as well as you may understand they are now the summer of them would immediately revolt from all connection with so ungodly, illegal, unconstitutional, and fellish a crusade against an innecent people, and if their blood is shed it shall rest upon the heads of heir commanders. With us it is the kingdom of God or tothliag. After much similar defiant language, Young says:-

When the President of the United States so far degrades his high position and prosition the tendency of the people so as to make use of the military power, intended only for the protection of the people's rights, to crush the people's liberties, and compet hem to receive officials so loss to self respect as to accept appointments since the known and expressed wish of the people, and so craven and degraded as to need an army to protect them in their position, we feel that we would be recreant to every principle of self-respect, honor, integrity, and patriotism, to show tamely to such high handed tyramy, a parallel to which is only found in the attempts made by the British government in its most corrupt singes against the rights, liberties and lives of our forefathers. If our real enemies the mohocrats, priests, editors and peliticions, at whose itsill gation the present storm has been gathered, had come against us, instead of you and your command. I would not have addressed them thus. They never would have been allowed to reach the St such Fass.

John Taylor, in writing a letter to Captain Marcy, says:—

I know from your personal interocurse with members of the Senate and House of Representatives of the United States, that there have been various plans concorted at headquariers for some importance of the overdrow of the Mormons. Mr. Fuller, of New York, who sent you an indroductory letter to me, informs me that you are a politician. If so you must know that in the last Presidential campaign the republican party had opposition to slavery and polygamy as two of the principal planks of their platform. You may know that Utah was picked out, and the only Territory excluded from a participation in the pre-emption rights to land. I might enumerate injuries by scores, and if these things are not so, why is it that Utah is as knotly a question? Why could Drummond and a host of other mean scribblers paim their barefaced lies with such injurity, and have their infamous slanders swallowed with such guste. Was it not that the administration, as their satellites, having plansed our destruction, were easer to catch at anything to render apecious their contemplations of blood, or in plain terms, the democratic advocated strongly popular sovereignty. The republicans tell them if they ight in maintaining involably the domestic institutions of the south they must also await own of terfere with the religious scrappine means to dispose of the Knotty question, they include the failing to deviae measures, his Thomises cancellent of an armed force against Utah, and thus thought, by a sacrifice of the Mormons, to unite the knotty question. Yes, by destroying or killing a hundred thousand innocent American citizens, to satisfy the plous, humane and paticing feelings of their constituents, take the wind out of the sails of the republicans, and gain to themselves immortal honors.

On the person of Major Joseph Taylor, who was captured, was found a letter to him from Daniel Wells. Lieutenant General of the Mormons, in which the latter directs him, under date of October 4, to proceed with all possible despatch to the Oregon road, ears Bear river, taking close and correct observations of the country on his route. "When you approach the road," he says, "send scouts ahead to ascertain if the invading troops have passed that way. If they have passed, take the concealed route, and get ahead of them. Express to Col. Benton, who is now on that route and in the vicinity of the troops, and effect a junction with him, so as to operate in concert. On ascertaining the locality or route of the troops, proceed at once to annoy them in every possible way. Use every expertion to stampede their animals, and set fire to their trains; burn the whole country before them and on their flank; free them from sleeping, by night surprises; blockade the roads, by folling the trees or destroying the river fords where you can; watch for every opportunity to set fire to the grass on their windward, so as to, if possible, envelope their trains; leave no grass before them that can be burnt; keep your men concealed as much as possible, and guard against surprise; keep soouts out at all times and communication open with Col. Benton, Major McAllister and O. R. Rockwell, who are operating in the same way; keep me advised duly of your movements and every step the troops take, and in what direction. God bless you and give you success. Your brother in Christ.

Democratic Mass Meeting in Philadelphia. R PRESIDENT'S KANSAS POLICY ENDORSE SPEECHES OF SENATOR BRIGHT AND OTHERS.

The democratic meeting held here this evening to enorse the administration was large, but, comparatively, little enthusiasm was manifested.

Mr. W. H. Whree, of Pennsylvania, ma nd argued that the object of the administration was to let the people of Kansas settle their own affairs. There was no charge of illegality brought forward when the Convention was elected, but many refused to vote. It was their own fault. If the President marked out any other course in his message than true democracy, then charge him with either ne glecting his duty or overstepping his authority. He referred to the attack of Senator Douglas upon the Kansas portion of the message immediately after the reading of it.

than true democracy, then charge him with either no glecting his duty or overstepping his authority. He referred to the attack of Senator Douglas upon the Kansas portion of the message immediately after the reading of it, saying that he (Douglas) made it without deliberation (Here three cheers were given for Douglas with astonishing applause, which was followed by hisses and an attempted ejection of the proposer, and loud cheers for Buthanan.) Mr. Douglas arraigned the President in no very respect ful terms. He argued that the people of Kansas were allowed to manage their own affairs in their own way in being invited to elect delegates to the Lecompton Coavention. He had learned, on good authority, that the Toomba' bill was submitted to the Committee on Territories, and the enabling act discussed in the house of Mr. Douglas over night. Next day that bill was submitted to Congress with the enabling act stricken out. He alleged that the friendship of Mr. Douglas to others was dangerons. He (White) wished to read no man out of the party, but when his actions cause approving smiles from the opposition, the door being open, no one would prevent him leaving. He is himself to blame.

Senator Butour, of Indiana, was the next speaker. He said he had not had lime to prepare himself to speak on the subject of the President's policy as fully as he desired. Every word he might say here would go before another tribunal—the people of Indiana. If he neglected Indians or forgot her interest might Heaven forget him. Territorial acquisition and government was a most inti-case question and had caused much trouble. He referred to the democratic policy in reference to the admission of new States since the establishment of the confederation, asying it had always been favorable. In order not to be misunderstood he would place himself right before the people by explaining the position he intended to take in the Sonate. He had prepared a written statement, from which he read the doctrine of non-intervention as laid down. The Nichson let

importance.

The constitution of the country had been overthrown, the federal Congress and Supreme Court broken up and dispersed, and Comonfort declared absciute dictator, with power to call an extraordinary Congress. The whole capital was in arms, and other municipalities; including Vera Cruz, had given in their prompt adhesion to the new order of things.

The revolution in the city of Mexico took place on the I'th inst. The movement was a sudden, bold and daring one, and crowned with the most complete success. It was planned by Comonfort and then entrusted to Gen. Pacz, who carried it friumphantly into execution without any active resistance on the part of the people. Indeed, the who carried it trumphanity into execution without any active resistance on the part of the people. Indeed, the latter evinced their joy in various ways, and unhesitatingly halled Comonfort as their supreme ruler.

There were but few arrists made, though among the few were several men of distinction.

A number of the mintary sent in their resignations the same day.

The latest advices from the city are contained in a letter to the Picoyane, dated 19th linst., which represents "everything as going on well."

Later advices from Yucatan are also furnished. The country continued distracted by civil war.

Sisal, which at the previous dates was in possession of the Campeachy troops and in a state of blockade, had been captured by the reactionists; but it was again retaken by the former, and a strong force of good troops were stationed at that point to defend it from further assaults.

presented a voluminous and important report relative to

the tax levy of 1858:—

The attention of the Common Council and that of the public was called to the fact that the estimate for city expenses, as proposed by the committee for 1858, is less by about \$600,000 than for 1857; but the enormous increase for state tax (the mills) being \$787, 421 of more than for 1857, brings the aggregate amount of the levy to more than that of tax year.

The committee submitted for their consideration some of the largest items of expenditure, some being for the State and others for departments not under the control of the Common Council, amounting, in the aggregate, to about \$5,000,000, among which your committee would enumerate—

Total. 34,69,687
The expenditures of the city departments for the year amount to about \$3,000,000, and your committee feel the great importance of having the control and supervision of the various departments, under the direction of the Mayor and Common Council, insamuch as the public look to them as the responsible powers in the city government. At present, we could not intefere by cutting off supplies without subjecting the city to great inconvenience and further expense.

We have, therefore, thought best to make the appropriations aforesaid, as given by the Comptroller.

The committee recommend that the amount for cleaning streets he made \$345,000, as contract has been entered into by the Mayor and Common Council with responsible parties for that sum. It is well known that the subject of street cleaning has engaged the attention of the Common Council and the public for years, that our streets have been in a most disgree-cityl condition, while enormous sums have been used not seen to the common council and the public for years, that our streets have been in a most disgree-cityl condition, while enormous sums have been used

streets, such as Broadway, are being cleaned by private subscription; this should not be; besides, the charter requires all
work to be done by contract.

The committee deem it proper to call the attention of the
Common Cunnell to the enormous increase of salaries. The
amount of salaries in the tax levy of 1857, was \$410,000, for

The respective parents took up the quarrel of the children and were engaged in lighting when Mrs. Simet, it is sileged, stepped up with a club and struck her husband's antagonist a heavy blow on the temple, killing him upon the spot. The police being uotfied of the affair, Mr. and Mrs. Simet were taken into custody and committed to await the action of the Coroner.

Yesterday, Coroner Hill proceeded to the house occupied by the deceased for the purpose of holding an inquest upon, the body, when the following additional particulars were gathered in relation to the occurrence:—Simet it appears was intoxicated at the time, and appeared to have been the aggressor. He followed deceased to his room and wanted to have a fight. The latter was not destrous of having a combat, and endeavored to get Simet out of his apartments as peaceably as possible. But Simet would not leave the premises, and when deceased made an attempt to push him out he turned upon him and struck him a number of severe blows. One of the neighbors then ran between the men for the purpose of separating them, when Mrs. Simet ran up and with the handle of an axe struck deceased three heavy blows on the bead. The combatants then separated. Almost immediately afterwards Richter felt the effects of the blows he received at the hands of Mrs. Simet He complained of a severe pain in the head, and asked his wife, to go of for some vinegar to bathe his temples with. When his wife came back from the grocery store she found deceased lying dead upon the bed. Mrs. Simet, on hearing of Richter's death, fled from the house and took refuge in a neighboring shoomaker's shop. She was arrested a few hours afterwards by policeman Brown, of the Eleventh ward police, and locked up for examination. Coroner Hills decided to adjourn the inquest until to-day, when the evidence of several important witness Deceased was about sixty-six years of age, and leaves : wife and three children to lament his untimely end. FINANCIAL AND COMMERCIAL

The stock market opened and closed dull and hea-

MONDAY, Dec. 28-6 1. M.

vy this morning. The cliques of speculators for a rise have kept up the show of business about as long as they can afford to, and have evidently concluded to let the market take care of itself. At the first board to-day Tennessee State 6's declined & percent; Pennsylvania Coal Company, 1; New York Central Railroad, 4; Panama, 4; Galena and Chicago, 2; Cleveland and Toledo, 4; Cleveland, Columbus and Cincinnati Railroad, 1. La Crosse and Milwaukie Railroad advanced per cent. There was no movement of consequence in any leading security, and at the close prices were weak. At the second board there was no business worth reporting. New York Central Railroad fell off & per cent, and was afterwards offered at 73% cash. In Michigan Southern old or preferred stock the transactions were exceedingly limited. This company are still in want of money, and it must be raised at any and every sacrifice. In accordance with the example shown by the New York Central Railroad Company in their endeavor to re-issue the bonds reputed to have been redeemed, under the name of "Funded Debt bonds," why would it not be proper for the Michigan Southern Rairoad Company to advertise for sale the seven thousand shares of their old or common stock, for which they have given their bonds at par, bearing sever per cent interest? There being no doubt that the New York Central Railroad Company have the right, or they would not attempt to make the ne-gotiation, and with this valuable precedent the Michigan Southern Company ought not to be precluded the like, the more especially as the motive of the later is to preserve vitality, while that of the New York Central is the exhibition of a forced effort to make a dividend in the face of the most adverse business. The Michigan Southern Railroad Company in its recent negotiation received about \$300,000 cash and a nominal sum of \$700,000, the par value of their 7,000 shares, for which tacy have issued not less than \$1,000,000 of bonds. The inducement for consummating this extraordinary negotiation can only be justified by the prevalent system of financial scheming and the extremity to which the company has been reduced, showing itself in the necessity which they were under to get a sufficiency of means to redeem a large amount of stock which had been hypothecated by the company to prevent immediate explosion. At the present value of the stock the reissue of the 7,000 shares would raise \$140,000, which if obtained, would be almost sufficient to prevent the proposed issue of the second million of bonds for \$200,000 in cash and 8,000 shares of the guaranteed stock, the only difference between the two negotiations being but \$60,000. This suggestion is evidently so wise and proper that not a moment should be lost in announcing the withdrawal of the proposal now pending, unless it should be deemed more expedient to secure the guaranteed stock, with an eye to its re-issue, at some future time, as an additional source of revenue. As the receipts of the company are rapidly falling off, there would seem to be a justification for the movement we have suggested, with the full conviction, on our part, that when the two millions of seven per cent bonds bave been issued and the stock sold, there will still exist a necessity for
